

## List of figures

*Page*

### **Chapter II**

Figure 1. Age pyramids of the population 1952/54, 1961 and 1971..... 26

### **Chapter V**

Figure 2. Adjusted male age-specific death rates, 1974-1975 and 1977-1978..... 54

Figure 3. Adjusted female age-specific death rates, 1974/75, 1976 and 1977/78..... 55

Figure 4. Adjusted age-specific death rates, 1974-1975, 1976 and 1977-1978..... 56

### **Chapter VII**

Figure 5. Organization chart of the Family Planning Association of Nepal..... 71

Figure 6. Organization chart of the FP/MCH Project..... 73

Figure 7. Percentage distribution of acceptors who dropped out within the first three months of acceptances by age group and type of provider..... 88

### **ANNEX II**

Figure 8. Male age ratio, 1952/54, 1961 and 1971..... 196

Figure 9. Female age-ratio, 1952/54, 1961 and 1971..... 197

Figure 10. Reported single-year age distribution of females for age 0-74, Household Survey and 1971 census of Nepal..... 199

Figure 11. Reported single-year age distribution for women who know and women who do not know their dates of birth for ever-married females aged 15-49, Nepal Fertility Survey, 1976..... 200

Figure 12. Reported distribution of marital duration for women who know and women who do not know dates of birth for ever-married women aged 15-49, Nepal Fertility Survey, 1976..... 201

Figure 13. Reported number of children ever born per woman and number from synthetic births, last year schedules, by single year of age, Nepal Fertility Survey, 1976..... 208

Figure 14. Age ratios for female population in the Household Survey and percentage of omission of children ever born (CEB), Nepal Fertility Survey, 1976..... 210

Figure 15. Cumulative number of children ever born per woman by five year age group..... 213

|  |     |
|--|-----|
| Figure 16. Mean age of childbearing for completed fertility schedules with and without corrections for omitted births by single-year cohorts aged 30-49, Nepal Fertility Survey, 1976...   | 215 |
| Figure 17. Cumulative number of children ever born per woman in the reported fertility history corrected for omissions and in the synthetic births, last year schedule, for 38-year-old women, Nepal Fertility Survey, 1976..... | 216 |
| Figure 18. Cumulative number of children ever born per woman in the reported fertility history corrected for omissions and in the synthetic births, last year schedule, for 48-year-old women, Nepal Fertility Survey, 1976..... | 217 |
| Figure 19. Age-specific fertility rates from synthetic schedule and as derived from fertility histories of 49-year-old women, Nepal Fertility Survey, 1976.....  | 218 |
| Figure 20. True and reported age-specific fertility rates for a cohort of older women who displace dates of births towards the present.....  | 219 |
